Beth:

Yes, I am will to consider this if it is an option for these waste streams. In fact, we should always be considering alternative disposal options if the waste we are sending can be accepted by the disposal facility.

Thanks

Sounds good, I'll see what I can do but Lonestar will be receiving quite a bit of this material and we are maxing them out. Are you interested in sending some of the non-haz slated to Lonestar to Republic if it speeds up the process? We would be looking at a .41/gal price difference. Just putting it out there. Let me know your thoughts. I take it your still with us..?

Subject: CES: Community Meeting

Beth/Leroy:

The meeting with the community went well. The ASTs and Frac Tanks are a big concern for several of the residents that live adjacent to the facility. We need to make sure that we are doing everything possible to remove the contents of these tanks and send them off

for disposal in the most efficient and timely manner (preferably prior to Christmas Break). I would like us to try to execute on the removal of the contents from the Frac Tanks and ASTs that we have data.

Thanks
